

RESELLER PROGRAM

Be a Callbox Reseller Today

We at Callbox Sales and Marketing Solutions have always been dedicated to growing our business and extending our services through partnerships with other companies. We built and developed a system that allows our affiliate companies to deliver our products and services to their customers using a strong reseller channel. By doing so, we broaden our own market reach and open new doors to our affiliates as lead-in for new customers.

As an affiliate partner, Callbox capitalizes on your talents and skills in promoting our products. Our partnership will develop into a mutually beneficial relationship between us and our mutual customers. Aside from that, you also get fresh leads and recurring high commissions for every lead you generate and for every sale you make.

Our Reseller Product

Our reseller program includes our core expertise - Appointment Setting and Lead Generation Services. We have been providing lead generation services for six years already to businesses of all sizes – from small businesses to the largest Fortune 500 companies, covering a wide variety of industries.

Our expertise in the field of appointment setting and lead generation has earned us the most coveted Top Outsourcer Award in 2008, and a worldwide recognition as the largest and the best in lead generation. When you partner with us, you are working with an award-winning company, one with a widely-recognized voice in the industry.

As a reseller, your duty is to sell Callbox to clients by generating quality fresh leads that will use its services. The amount of commission you receive will depend on how the lead or sale was generated.
